PROFILE**

WELCOME TO TOKYO AUTO INSPECTION

TOKYO AUTO INSPECTION is a private Japanese entity that carries out quality inspections on used vehicles and spare-parts. Since 2013, our team has been ensuring that vehicles leaving our inspection centres are roadworthy, up to standards and safe to drive.

At the moment, TOKYO AUTO provides private domestic periodic inspection services for Japan Engineering Company and Nishino Motors. We are also an authorized dealer for IYASAKA inspection equipment and machineries (see appendix K). As we continue to grow, we look to extend our services and perform pre-shipment inspections on road vehicles leaving the ports of Japan and Dubai, for government authorities to safeguard against the importation of stolen, environmentally unfriendly, corrosive and unsafe vehicles.

So, before you part with your cash, trust us to carry out all the safety checks for you, first!

An airbag is a very important vehicle safety device and is an occupant restraint system that could prevent deadly accidents, without this, a vehicle immediately fails inspection and is not cleared for export.

TOKYO AUTO INSPECTION research demonstrates that one of the main hidden risks to purchasing used vehicles is odometer fraud. We have inspected many domestic used vehicles with rolled back odometers. The good news is that we can prevent you falling victim to this kind of tampering, which could cost hefty sums with your insurance company or the disappointment of your vehicle valuing far less than you bargained for.

NO NEED TO WORRY!

Our inspectors verify the conditions of the vehicle, compare the vehicle history report with the reading of the odometers, and if there is anything sketchy, we will find it!

At TOKYO AUTO INSPECTION, we believe that quality is affordable when due diligence is used from the start to prevent costly repairs and misfortunes in the end. Our mission is to ensure that we protect the interests of our clients and that used vehicles leaving our inspection centres are thoroughly inspected.

Our commitment to you:

- Thorough inspections within 24hrs of request.
- Equipped inspection centers and qualified inspectors across Japan and Dubai ready to serve you.
- Fixed rates for used vehicle inspections- no hidden extra costs.
- Quick response to all queries.
- Guaranteed confidentiality and impartiality.
- Free appointment and initial advice on your first visit with no obligations on your part.

Company Vision

To provide a reliable service and quality assurance to our clients and customers through the use of the right tools, expertise and support.

Company Mission

To ensure that all used vehicles leaving our inspection centers are safe to drive, roadworthy and are in full compliance with regulations and standards.

Core Values

Trust & Integrity: : We look out for your best interest.

Quality: We strive for excellence and leave no parts unchecked.

Customer focus: We are accessible and there whenever you need us

CAR INSPECTION SERVICES

Our team of highly experienced engineers and staff can:

- Inspect your vehicle at one of our service locations, usually within 24 hours of your request.
- Conduct invasive and non-invasive inspections of the vehicle, some of these include checking the engine for corrosion and rust, confirming the reading of odometers, checking the quality of the tires, ensuring the windshield has no cracks and that wiper blade scratches are not obstructing the visibility of the driver.
- Deliver to clients an original certificate of inspection on the day of inspection.

MANAGEMENT

TOKYO AUTO INSPECTION was founded in 2004 by Willy Ngoya who later steered the company to offering inspection services in 2013. His leadership is supported by a team of local and international staff. Our strength lies in the integrity of our team and our commitment to clients and customers.
